## TS350 Series

### Advanced Level Dispenser

The TS350 Series dispenses low, medium and high-viscosity fluids accurately and consistently and is immediately usable anywhere in the world with its accompanying tools, accessories and universal power supply. A highly responsive air pressure and vacuum management system, coupled with a digital timing circuit and digital pressure/vacuum read out provides repeatable fluid dispensing.

The user friendly firmware provides an option of programming up to 10 varied, sequenced or individual shots. These systems have a user programmable manual (purge) and automatic dispense cycle settings (program and time) and they feature a "Teach Mode" for determining the dispensing time required with dispensing output is unknown. Available in 1 -100psi (0.07 - 6.9 bar) for general applications, and 0 - 15psi (0.07 - 1.0 bar) for specific low viscosity applications.
